WPG Gives Back With Backpacks!

Florham Park, NJ, October 7, 2008 - As strong believers in “paying it forward”, The WorkPlace Group® family of companies (WPG) has created their **WPG Corporate Citizenship Initiative**. It is our way to give back to the community and help those less fortunate. In these hard economic times organizations that suffer most are charities and, in essence, children.

In our continued effort to do our part, WPG has teamed up with the **NJ Division of Youth & Family Services** to sponsor a backpack and book drive for New Jersey children in foster care. Many of these children move from home to home with nothing more than a garbage bag to transport their belongings.

We are collecting books and slightly worn backpacks for donation. Our hope is that these backpacks and books will put smiles on the faces of deserving children, inspire hope, and increase literacy!
