Indiana Jones and WPG...LET THE ADVENTURE BEGIN!

Florham Park, NJ/Leeds, UK - October 8, 2008 - Comensura, global leading provider of Procurement and Supply Chain Management solutions, headquartered in Luton, UK has chosen The WorkPlace Group® (WPG) as a supplier for contract, temporary and permanent staffing personnel.

Comensuras' focus on being a strategic partner with their clients and contributing directly as a revenue generator to their client's bottom line is directly aligned with the mission and values of WPG. Comensura is an industry pioneer and innovator, and choose only to work with suppliers that can exceed client expectation and deliver leading industry results as WPG has done and continues to do.

"Many of the positions that Comensura's clients are looking to fill are very specialized. They require a targeted and systematic approach to source passive/high demand candidates. With WPG's Multimethod-Multisource Candidate Acquisition™ and WPG Candidate Assessment™ methodologies in place we are able to deliver these candidates on-demand", said Steven J. Lindner, CEO of The WorkPlace Group®.

When the Derbyshire County Council (DCC), found themselves in need of an archeologist to ensure certain historical treasures were categorized and documented correctly, Comensura knew finding one would not be an easy task. The place to start, however, was easy. Partnering with a recruitment firm that not only boasts a team of experienced recruiting professionals, but one that has a global reach to systematically find the elusive needle in the haystack was imperative.

That firm was WPG! Known for their perfected methodologies and their “we can find anyone anywhere” approach, WPG tackles even the most obscure recruiting needs. As the creators of the Multimethod-Multisource Candidate Acquisition™ and WPG Candidate Assessment™ methodologies, WPG significantly increases the quality of the candidate pool producing only interview-worthy candidates.

The WorkPlace Group® family of companies, founded in 1997, provides customized recruitment outsourcing (RPO), project-hiring recruitment, contingent workforce management and professional temporary staffing services for all levels and functions across industries. Their services are provided globally with staff located throughout the world.

The WorkPlace Group® is thrilled to be working with Comensura and looks forward to a long and exciting relationship.
